

"You can't use up creativity.
The more you use, the
more you have."

Maya Angelou

How can we help care for God's creations?

What do you think is God's greatest creation?

How can we use our own creativity to bring joy to ourselves and others?

What colours of creation are your favourite? Where can you find them?

How can we use our outside spaces in school to develop creation and be more creative?

Does having a Heart for God's Earth bring us all 'Life in All its Fullness'?
