

Heart for the Earth

HEART 
for the
EARTH 

Key Questions: What is so amazing/special about our planet Earth? Why is it so important to have lots of different types of animals and plants? What does 'climate change' mean? Is this just a problem for those who are alive after us? Can we really make a difference to this massive problem?

What does the Bible say about looking after God's creation?

'The Lord God took the man and put him in the garden of Eden to work it and take care of it.' Genesis 2:15. 'You made (man) ruler over the works of your hands; you put everything under his feet: all flocks and herds, and the beasts of the field, the birds of the air, and the fish if the sea, all that swim in the paths of the seas.' (Psalm 8:3-8)

We can use our HEADS to find out what is happening to our planet and God's creation. What do we need to do to save the planet and why is it important that we do?

We can use our HEARTS to express our love for all of creation – the animals, the plants and the people. Are they worth saving and why?

We can use our hands to make a difference to our communities and to the planet as a whole. Every little difference that we make could add up to one big difference!
